✂ HOW IT WORKS ✂

2 acclaimed chefs will each lead a team of 10 of the most talented young chefs in the country.
In every episode the mentors will lead their team across 2 challenges.

The main challenge: a dish of the mentor's choice – from meaningful recipes to favorite foods.

The elimination challenge: the weakest apprentices in each team will get one last chance to prove themselves and be saved from elimination!

In the season finale, a finalist from each team will battle for the title! Aided by a previously eliminated teammate chosen to be their 'sous-chef', they will fight for the big prize: a culinary trip for the family, a kitchen upgrade and a scholarship for a top cooking school.

Between the pressure, tears and laughter, which apprentice will win the fight for his mentor and become the best young chef?
