✈ HOW IT WORKS ?

- 20 singles will travel across 5 continents, going off the beaten track to discover and experience new and amazing cultures each week.
- At every destination contestants will have to complete group, couple and solo challenges relating to their new cultural setting, giving back to the community they're in and competing to win a precious ticket to the next destination.
- Throughout the challenges, the ticket winners will have to decide who else to take with them to the next stage, creating drama and special bonds along the way.
- At the end of each week, contestants who haven't won a ticket to the next location will end their journey and return home.
- In the final episode the 2 remaining couples must fight to be the last couple standing in order to win the grand prize.
