# DO ME A FAVOR

## Street Game Show

### How far would you go to help a complete stranger?

'Do Me a Favor' is the new fresh, funny and cheeky ambush game show where two contestants go head-to-head to win cash prizes!

In every episode two contestants will take to the streets turns and convince complete strangers to do them a favor in the least amount of time! They will choose one out of **15 pre-selected favors** from a bag. Each contestant has **10 minutes** to complete as many favors as possible – the contestant who runs out of time first, loses the game! They must ask passers-by to help them with crazy tasks, from stopping traffic by dancing ballet to hailing a cab with your hands tied! All their hopes lie with complete strangers!

Once the 1st player has completed a favor, their clock will stop counting down, and the 2nd participant's clock will start counting down as he begins his turn.

The participants can ask, beg, compliment or bribe to get their way! Each contestant is given **\$250 to help them persuade strangers** to help! In addition to the cash prize, they will also get to keep their 'bribe' money – or what's left of it!

The contestant who doesn't run out of time will automatically win \$250, as well as what is left of their 'bribe' money. But to win the **cash prize of \$1,000** they will need to complete one last favor. The catch? For the **final favor, the potential winner must complete the task himself!** And the loser will pick the task – whether making him wax his own legs or shave his own eyebrows.

*A game show where you don't have to be a trivia master, just a master of persuasion!*
