EVERYONE CAN PLAY, EVERYONE CAN WIN!

HOW IT WORKS:

- 👉 A team of 4 people in the studio are confronted with a dilemma – these can be moral dilemmas, deal with the hottest trends and news, be about relatable or social issues, raise promotional content or just be plain fun!
- 👉 The team will have to correctly guess the people's choice over 10 questions of increasing difficulty and value.
- 👉 While the nation votes live, the team tries to guess the country's answer!
- 👉 If the team chooses to see how some of the nation voted, the viewers picked at random will instantly win some of the team's money!
- 👉 One player is picked to answer each question. If they answer correctly, the player will rejoin the team. Answer incorrectly and that player is out of the game! If all players are lost, it's game over and they lose all their winnings!
- 👉 At the final question, the team must guess all *but* the people's choice for the chance to win \$500,000!
